Attorney's Docket Number: 718936.11

Filing Date: 1/4/2006

Continuing Data: 371 of PCT/KR04/01770

Claimed Foreign Priority Date: 718/2003, 10/10/2003 (KRX)

Drawings

1. The drawings were received on 4/28/2008. These drawings are acceptable.

Election/Restrictions

2. Newly submitted Claims 9 to 17 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons:
3. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1 to 8 (canceled), drawn to a semiconductor device, classified in Class 257, Subclass 72;
 - II. Claims 9 to 17, drawn to a process for making a semiconductor device, classified in Class 438, Subclass 14+.
4. The inventions are distinct, each from the other because of the following reasons:

Inventions II and I are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). In the instant case unpatentability of the Group I invention would not necessarily imply unpatentability of the Group II invention, since the Group I invention could be made by using an annealing process instead of without said process (Claim 9).

5. Because these inventions are independent or distinct for the reasons given above and have acquired a separate status in the art in view of their different classification, restriction for examination purposes as indicated is proper.
6. Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, Claims 9 to 17 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.
7. The amendment filed on 4/28/2008 canceling all claims drawn to the elected invention and presenting only claims drawn to a non-elected invention is non-responsive (MPEP § 821.03). The remaining claims are not readable on the elected invention because they are drawn to a process for making a semiconductor device.

Since the above-mentioned amendment appears to be a *bona fide* attempt to reply, applicant is given a TIME PERIOD of ONE (1) MONTH or THIRTY (30) DAYS, whichever is longer, from the mailing date of this notice within which to supply the omission or correction in order to avoid abandonment. EXTENSIONS OF THIS TIME PERIOD UNDER 37 CFR 1.136(a) ARE AVAILABLE.
